

Commercial Capture Xpress Minimum Requirements

Workstations:

933MHZ, 512MB RAM, 8MB-Video,USB 2.0 Port,keyboard, mouse, monitor

Operating Systems:

- Windows Vista 32-bit
- Windows Vista 64-bit
- Windows 7 32-bit
- Windows 7 64-bit
- Mac OS X
 - If used to scan checks, Mac OS is certified for use only with a Paniniscanners VisionX and IDeal; Ethernet-attached Magtek Excella or Excella STX scanner (no drivers are required to be installed on Mac when using Magtek scanners)
 - recommended minimum is Mac OS X 10.6 (Snow Leopard). *Mac OS X 10.6 (Snow Leopard) is the required minimum for Panini scanners.*

Note for Mac users: We acknowledge that many of the scanner drivers will work in a virtual Windows environment, using tools like VMWare's Fusion and Parallels Desktop. Although many of our customers find they can run scanners successfully in this type of environment, most scanner manufacturers do not certify or support their drivers for use in virtual machines. Therefore, we cannot guarantee that your scanners will work in virtual environments, and any customer support for such environments will be on a best-effort basis.

Software:

- Adobe Acrobat Reader version 6.0 or higher (free from Adobe)
- Java Runtime Environment (JRE) (web browser plug-in; free from Sun Microsystems)
JRE 6u10 or higher

Browsers:

- Microsoft Internet Explorer version 7 or higher
- Mozilla Firefox - 3.0 or higher
- Apple Safari - 3.0.4 or higher
- Google Chrome - 2.0.172.39 or higher

**Please note -: The stated version numbers are our supported minimums for each browser type. However, we recommend that users continue to update their browsers to the latest versions, using the appropriate mechanisms, to take advantage of security and performance enhancements issued by the browser vendor.*

Also, for all supported browsers, Scripting and Cookies should be enabled (they are enabled by default on most modern browsers).

Internet Connectivity:

Broadband Internet access with a minimum of 128Kbps download speed is required for satisfactory performance. Dialup access may be used but system performance is not guaranteed. Dial up should only be used for back up.

Certified Scanners

Burroughs/Unisys

- SmartSource Professional

Canon

- CR-55
- CR-25
- CR-50
- CR-80
- CR-180
- CR-135i
- CR-190i

DigitalCheck

- Tellerscan 215
- Tellerscan 230-35,240,65,100
- Tellerscan 4120
- CheXpress CX30

Epson

- CaptureOne

MagTek

- Excella STX
- Excella

Panini

- VisionX 1F,50,75,100
- I:Deal

Pertech

- 6100

ROM

- EC7000i

Contact FIS for available options on these scanners. Options for several of the scanners include:

- Rear Ink Jet Endorsement
- Franking
- Several models are field upgradeable to a higher DPM
- Some models are OCR capable (for coupon/remittance processing)

Please note: For Apple Mac computers using Mac native operating system, the only certified scanners are the Panini VisionX, Panini I:Deal, and Magtek scanners. When using a Magtek scanner with Mac, an Ethernet (not USB) connection to the scanner is required.
